

# Natural Gas and Natural Gas Liquid Storage

## Ohio River Valley

- |                            |                            |                                      |
|----------------------------|----------------------------|--------------------------------------|
| Ohio River                 | <b>NGL Storage Caverns</b> | <b>Opportunities for NGL Storage</b> |
| <b>Natural Gas Storage</b> | Existing                   | Salt Cavern                          |
| Gas Facilities             | Proposed                   | Gas Fields                           |
| Gas Storage Wells          |                            | Greenbrier Limestone                 |

Potential storage data is from "A Geologic Study to Determine the Potential to Create an Appalachian Storage Hub For Natural Liquids" by WVU. Existing storage is from EIA & HIFLD.
